

Sandi Kimmel takes her job as a Joy Maker very seriously. She uses every tool in her toolbox - her music, her voice, her writing and her heart - to introduce people to their own spiritual nature.

Sandi left a successful...and stressful... corporate career determined to follow her heart instead of her head. After a process of discovering who she ISN'T, she found her own calling as a teacher of all things that help people find their dreams. A natural uplifter and chronicler of the inner journey, Sandi delivers universal messages of love and unity, leading readers and listeners to a sense of inner peace.

Sandi's newest album, *SOUL FEATHERS* is a collection of 12 new songs and chants to uplift and inspire, recorded by Producer and Musical Alchemist Thomas Barquee. Moving seamlessly between a broad range of musical styles, their collaboration is both timely and timeless. Together they created a new kind of chant they call *Chantscapes* - English words with mesmerizing music - combining the quality and depth of kirtan with the accessibility of Western music.

In addition to *SOUL FEATHERS*, Sandi's earlier albums (*TRANSITIONS - Music to Soothe the Soul*, *MUSIC IN MY SOUL* and *REACH UP*) are considered soundtracks for the spiritual journey, filled with musical messages of discovery, wisdom and wonder.

Sandi's concerts, called *An Evening of Spirit, Story & Song*, are gatherings of like-minded people who come together to celebrate, deepen and connect. Her writing is peppered with nuggets of wisdom gleaned from years of navigating her own journey, and her *Soul Feathers Guides* are e-courses on Practical Spirituality, filled with tools for the journey including perception-changing experiential exercises.
